

Collide Investments

At Collide Investment we fund the companies that create massive change in the fields of energy research, biochemical initiatives, and space travel.

We've contributed over \$9.6 trillion dollars to world markets in order sustain this planet and the other inevitable planets we will find in our travels.

Highlighted Portfolio

Fermilab

Fermilab's plan for the future outlines a diverse, world-leading research program that addresses the most important—and most challenging—questions related to research at the Energy, Intensity and Cosmic Frontiers.

SINOPEC

Sinopec's chemical business includes the production and sale of petrochemicals, polymers, synthetic fibres and rubbers, fertilizers and other chemicals. Other businesses include oil and gas exploration and production, refining, marketing, research and development and foreign trade.

BASF

BASF is one of the world's largest integrated chemicals companies with a portfolio ranging from chemicals, plastics, performance products, agricultural products and fine chemicals to crude oil and natural gas. The company is divided into the following segments: Chemicals; Plastics; Performance Products; Functional Solutions; Agriculture Solutions; and Oil and Gas.

SPACEX

SpaceX's unmanned Dragon spacecraft is being developed as a cargo vessel to deliver supplies to the International Space Station under a \$1.6 billion deal with NASA. The contract calls for 12 SpaceX Dragon flights to the space station through 2016.

Collide Investments

We only recruit the best.

Management Team

Dan, "I am investment" Moneyman is utterly dedicated to investing. "I approach every situation as an investment opportunity. My favorite activity is investing; my greatest skill is investing; my after-work hobby is investing; my favorite TV series is Alan Hall's Guide To Successful Investing. Sometimes I introduce myself as the Dan Moneyman Investment Group. None could be more invested than I in the idea of investment, itself."

Salty Dutch is the lead pattern recognizer. She finds potential recruits and opportunities. She has no formal higher education and is regarded as a unique savant in her field. She is credited with increasing the GDP of 7 nations by over .01%.

Captain Ted Darkness, Analyst, is a veteran of two interplanetary conflicts and a time war across two orthogonal spatial dimensions. After the Anarran Revolution, he retired from military service and enjoyed a career as a privateer before becoming stranded in this timestream by an antimatter containment mishap. He brings to Collide a near-encyclopedic knowledge of future history that is usually proves to be mostly accurate.

Dr. KT, Special Unlimited Parter at Collide. Before joining Collide, he spent years tight walking quantum strings in search of angel and seed round investment opportunities. His portfolio has included Wood, The Universal Law of Gravitation, Mr. Plushie's Shake Shack, and Revolutionary Regime Change. His experience bringing such disruptive technologies to market affords him precision hindsight as a defensible competitive advantage.

Prof., Denise Darling is a leading partner in collide. While not brokering M&A deals of leading world companies, she teaches biogenetic computer science and literature to a group of genetically engineered cyborgs age 2 -4 years. Currently her group of 6 all surpass IQ of 220.

Le Femme Anita leads and vets all potential opportunities with uncanny ability to see the future and make shrewd decisions. She is responsible for the original soundtrack. She's graduated from Stanford, Harvard, Oxford in linguistics, physics, medicine.

Collide Investments

The only way to stay in the game is to play hard everyday.
And make sure they know you.
