

The Bureau of Spooky Stuff

B.O.S.S.

Mission Statement

B.O.S.S. is a pseudo-regulatory body of "The Government". Our mission is to investigate, delegate, regulate, and obfuscate spooky goings on around the world. Our role is simply to serve the public interest. We accomplish this in two ways:

- 1.) We identify authentic spooky activity, and hire authorized spooky investigators to eliminate the threat.*
- 2.) We ferret out fraudulent and unauthorized shysters trying to illegitimately profit off of unregulated spooky activity.

As former co-founders (and current stockholders) of the Ghost Patrol Franchise, we are in a unique position to regulate other such investigatory bodies.

Our Team:

Agent deBeer
Special Agent Morris
Very Special Agent Hertz
Not So Special Agent Moore

Methodology

Whenever spooky activity is reported, we either assign investigators or quash the story, depending on the circumstances. Examples:

Benign Booga:	Investigated and eliminated
Halloween Haunter:	Investigated and eliminated
Area 51:	QUASHED
Bermuda Triangle:	QUASHED
Loch Ness Monster:	QUASHED
Bigfoot:	QUASHED
Santa Claus:	QUASHED
Haunted Cactus:	QUASHED

*Currently *Ghost Patrol* is the only authorized investigatory body.
